**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Please cancel claims 1-5.

6. (currently amended) A TVtelevision screen cover comprising:

a housing positionable on top of a TVtelevision adjacent a front face thereof, said housing and including an elongated first shaft having opposed end portions connected within said housing, said housing further having a bottom surface provided with a slot disposed in front of a TVtelevision screen;

a permeable cover member having a width extending along a length of said first shaft and being releasably wound thereabout, said cover member passing through said slot and extending substantially downwardly therefrom and along a TVtelevision screen, said cover member including a rod connected to a bottom portion thereof and for assisting a user to uniformly move said cover member between wound and unwound positions such that said cover member can be guided downwardly along the front face of the television;

a plurality of non-corrosive fastening members connected to said bottom surface of said housing and for removably fastening same to a TVtelevision;

means for attaching said cover member to a bottom portion of a TVtelevision so that said cover member becomes disposed in front of a TVtelevision screen for reducing glare emitting therefrom; and

an elongated second shaft disposed within said housing and below said first shaft and adjacent said slot, said second shaft guiding said cover member forwardly and downwardly through said slot.
